

The School for Accelerated Learning Admission Process

Time Frame

Steps

½ hour

Fill out application and send application, child's current IEP, and any other relevant documents (i.e., progress reports, Neuropsych testing, etc.) to Educational Consultants of New England, Inc.

With in 7 days

If your school has agreed to send your child to The School for Accelerated Learning, The School for Accelerated Learning has accepted your child, and your family would like him/her to attend, we will begin the transition process which includes current placement observations, educational testing, and transition planning. Together we will choose the date your child will begin.

Within 14 days

The informational appointment should include the child and at least one adult. This is a great opportunity to visit our school and ask additional questions. At this intake you will know if The School for Accelerated Learning can help your child and if s/he is appropriate for admission.

Immediately

If your school district is seeking and "out of district" placement, you should contact your school immediately and ask them to consider sending your child to The School for Accelerated Learning, and request they send us a "referral packet."

Within 6 weeks

The School for Accelerated Learning will call an IEP meeting and we will write (or revise) the student's current IEP. Once this is achieved the student may begin.
